OF NEW YORK**

437 EAST 9th STREET, NEW YORK, N. Y. 10009

212 - 254-4699

July 26, 1979

Dear Timothy,

Let me start out by saying that I was very much involved in your League for Spiritual Discovery and I was living with Don and Harriet Smoot during the time when the Perry Street Center was being organized and functioning. *(Just saw Harriet The other day.)*

I met your daughter there and immediately fell in love with her (though I didn't know who she was), I just noticed that she had a glow that surrounded her and set her distinctly apart from everyone else in the room.

When I asked her her name and where she lived I knew immediately that I had to come and visit her, (though I still didn't know she was your daughter, since she only said her name was Susan and that she lived at Millbrook.)

When I came to Millbrook to find her the people told me that there were two Susans and that one was your daughter--so I figured that she must have been your daughter, and her amazing aura made sense-- (I said to myself, "Oh--of course".)

I felt such amazing feelings flowing between her and me. One time I came up to see her and found her sleeping--half awake, in the morning. She looked up at me--our eyes met--we didn't say anything, but for some reason tears started coming out of my eyes. I didn't understand why these tears appeared, I didn't feel upset, but these tears were rolling down my face. This seemed kind of strange to me but when Susan saw the tears in my eyes it must have set off something inside her because she broke out into tremendous sobs and cries, and I reached out and held her and felt such wonderful love for her--such magical love. *(How is Susan?)*

Since that time I have thought of her and you many times and I hold a very sacred place in my heart for you.

It was at the LSD Center that I first became exposed to the Word and a pamphlet that I read by R. Gordon Wasson that I got from the Center led me to the discoveries and beliefs that I now hold.

This leads to the questions that we mentioned on the phone that we wanted to ask you.

Back in the sixties, I and most everyone else believed that Psychedelics were ~~a~~ "tools" or "short-cuts" to finding the ultimate enlightenment that could be reached other ways such as meditation, yoga, religious devotion etc.

We felt that seeing the Light--having the "Buddha Illumination"--was the final destination --the last bardo--and that after having this occur, we had reached, in three months, what had taken the traditional religions a life time of rigorous devotion to experience.

As you can see from our literature, we do not believe that the traditional religions with all their rigour will ever reach the true "Christ head" because we have seen that the Psychedelics themselves are the only body of the Creator, "Father" and there is no other way to commune with It other than to eat It.

We have come to believe and understand that the Creator is a molecular structure of atoms that is omniscient in that arrangement because It knows Itself.

Those same atoms in any other arrangement would not have consciousness --they would be "dead".

Of course, the evidence in the Bible that the Christians and Hebrews were worshiping the Psychedelic as the Father is overwhelming for all to see.

The "burning bush" was simply the fly agaric--the thunger God that grows on tops of mountains and looks like fire underneath the baby fur trees and thorn bushes--but a fire that does not consume the bush!

The Manna, must have been Psilocybin--small, white, round things, white like coriander seed, appearing on the ground after the dew covered the ground and lifted, growing where the quails left ~~there~~ their droppings. And when the people did not gather them right away they got worms in them and Moses was angry.

The Presence--bread from which issued the column of cloud of the Presence--none other than hashish--to which Moses would speak in the Trysting tent, and which went before the Hebrews and cleared the way for them.

So that the ultimate enlightenment -- the 5th level of consciousness that you called "soul" is the actual viewing of the Psychedelic Being Itself. And Nirvana, or Eternal Life, is the knowledge that the Psychedelic Being is the only Creator, Father, and nothing else is.

I saw the Psychedelic Being for the first time while smoking DET, and have seen it many times since then with other tryptamines such as DPT, MET, 5MeO-DMT all of which are not controlled substances and which we are producing in our lab right now.

→ 5MeO-DPT,

The DEA is aware of our activities and I have been keeping in touch with them to be sure that the tryptamines we produce are remaining uncontrolled.

Right now we are working on 4OH-DET, (CZ-74) in which there seems to be a fair amount of interest.

Up til now we supported ourselves by dealing Peyote which we were receiving from licenced distributors in Texas and ~~and~~ which we were authorized to receive by the Department of Public Safety in Texas. However, New York State ~~is~~ busted us about two months ago (after

- we had been receiving shipments of 20-40,000 buttons a month for the past 5 years). New York used to have an exemption for the Church but the Rockefeller law wiped out the whole old law and they did not reinclude the exemption.

So now we are having a ~~new~~ problem with support.

Many of our members have disappeared because of the fear of the law, or because the tryptamines are too strong for them--or because they simply prefer Peyote--or because they do not trust man made Psychedelics.

Our lawyer is very enthusiastic that we will definitely win our case and that no one will go to jail and has been calling all the newspapers and T.V. stations etc.

Our case is so strong because we believe that the Psychedelic Itself is God, and that it is the only God, Creator, and that those who worship It as the only God are Its Children and that they have Eternal Life. Of course, everyone who eats Psychedelics are Its Children, but they do not have Eternal Life if they do not realize that It alone is the true God and they must have ego deaths until they know it. *(The gov't. can't take away God and call it freedom of religion.)*

So we are looking for others to help us. It would seem that because the government has cut off our Peyote supply that we must earn our living by spreading the word. This is a basic change in our structure since previously we functioned ~~as~~ *mainly* as dealers to support ourselves. *monetarily*

We are hoping that the government will quickly grant us our rights and allow us to be licenced Peyote distributors as it has done for the other Native American Churches, but realistically, we must think now of entering a kind of show business mentality in order to spread the word and support ourselves. *and the flesh of God,*

I do not know how receptive ~~our~~ our old friends would be to our message and have found many to not be able to free themselves of the illusions they were taught about God in order to worship and know the true God, Psychedelics. *by traditional religions*

But, perhaps we have been approaching the wrong people.

The question we wanted to ask you is whether or not you now hold this belief--that the Psychedelics is the true and only God, *Creator.* *(Those who commune with It are the children.)*

We are also continuing our suit in the Federal Court (although we have gotten the Peyote decision from them). We want to have the law state clearly that anyone or any church that worships any Psychedelic ~~has~~ as its God, has the right to commune with It, and to be licenced to manufacture and/or distribute it to those who do worship It as their God.

It would certainly be wonderful to gather up the scattered tribes ~~and~~ ~~enter~~ the Holy Land with the ~~Trunk~~ true God as our protector and defender.

*the Word was for free*

*was in ancient times*

We are already doing it.

Do you think we could put together Church tours--to spread the word--perhaps have a benefit or something?

Maybe the Starship--the Dead--the Moddy Blues--MacCartneys etc?

We would definitely appreciate any help you could give and you are welcome to participate certainly.

In Holy Ghost Love,

Alan Binstman  
and The Native American Church

"For Zion's sake I will not hold my peace,  
For Jerusalem's sake I will never rest,  
till her triumph shines out brilliant,  
and her deliverance like a blazing torch,  
So that the very nations see your triumph,  
and every king beholds your splendor.  
You shall be called by a name that is new,  
a name to be fixed by the Lord.  
a fair crown shall you be, in the Lord's hand,  
a royal diadem carried by your God.  
'Forsaken' shall no longer be your name,  
your land shall no more be called 'Desolate'; "  
~~Isaiah~~ - Isaiah 62

"The sun shall no more be your light by day,  
nor shall the moon shed light on you,  
but your unending light shall be the Lord,  
your God shall be your splendor.  
Your sun shall never set, your moon never wane,  
for your unending light shall be the Lord,  
and mourning days will never come again."  
- Isaiah 60, 19

P.S. We could always use chemical knowledge —  
we do have a company to produce the 4-benzyloxy indole  
for the CZ-14 synthesis — although I know this is a very  
touchy area — any first hand knowledge of how to synthesize  
this indole — or any tryptamine expertise we would greatly  
welcome. —
